PROFESSIONAL SUMMARY

Information Systems undergraduate focused on data science, machine learning, and Indonesian NLP. Builds analytics and predictive applications with Python, scikit-learn, PyTorch, and Streamlit, emphasizing reproducible workflows, clear insights, and transparent model evaluation.

SELECTED PROJECTS

Olist E-commerce Intelligence | [Repository](#)

Python, Pandas, Plotly, Streamlit

- Analyzed 96,478 delivered orders across nine datasets to investigate sales, customer retention, and delivery performance; built an interactive Streamlit analytics application.
- Measured R\$13.22M product GMV, 91.9% on-time delivery, and 3.0% observed repeat customers; documented the association between delivery delays and low ratings without causal claims.

Student Success Prediction | [Repository](#)

Python, scikit-learn, Altair, Streamlit

- Compared classification models on 4,424 student records using enrollment and first-semester data; implemented probability calibration and individual and batch inference.
- Selected a human-review threshold achieving 88.03% dropout recall on a historical holdout, with 54.82% review precision and a 51.53% review rate.

Kurikulum Merdeka Sentiment Analysis | [Repository](#)

Python, IndoBERT, PyTorch, Transformers, Streamlit

- Built a three-class Indonesian sentiment prototype using 10,956 modeling rows from YouTube comments, covering text preparation, assisted labeling, and IndoBERT fine-tuning.
- Developed a Streamlit inference interface and documented pseudo-labeling, sampling, and evaluation limitations affecting generalization.

TECHNICAL SKILLS

Languages and data: Python, SQL, C++ | Pandas, NumPy, SciPy

ML and NLP: scikit-learn, PyTorch, Transformers, IndoBERT, TF-IDF, Sastrawi

Methods: Classification, clustering, cross-validation, calibration, threshold optimization

Visualization and apps: Streamlit, Plotly, Altair, Matplotlib, Seaborn, Folium

Tools and workflow: Git, GitHub, Jupyter Notebook, reproducible workflows, technical documentation

EXPERIENCE AND LEADERSHIP

CODE 6.0 - Field Coordinator | Events Division | 2026

- Coordinated on-site activities for the Competition of Developers finalist pitching session, supporting the presentation agenda and event flow with fellow committee members.

Informatics Mentoring | Informatics Olympiad preparation | 2024

- Mentored junior students in computational thinking, algorithmic reasoning, and structured problem solving for Informatics Olympiad preparation.

EDUCATION

Universitas AMIKOM Yogyakarta | 2025 - Present

Bachelor's degree in Information Systems, in progress | Yogyakarta, Indonesia

SMA Negeri 1 Batusangkar | 2022 - 2025

ACHIEVEMENTS AND CREDENTIALS

2nd Place - AMCC Member Training 2025/2026, Data Science Division | July 2026

2nd Place - OSN-K Informatics, Tanah Datar | 2023

GCI World April 2026: Certificate of Completion and Certificate of Honor | Aug 2026

Matsuo-Iwasawa Laboratory, The University of Tokyo

IDCamp 2025: Data Science Expert Level | Indosat Ooredoo Hutchison x Dicoding | May 2026

AWS Academy: Generative AI Foundations - Graduate Training Badge | Sep 2026

Ongoing coursework: Cloud Foundations, Data Engineering, Machine Learning for NLP
